CONTINUING CONNECTED TRANSACTION DUGALD RIVER ZINC CONCENTRATE SALES AGREEMENT

DUGALD RIVER ZINC CONCENTRATE SALES AGREEMENT

On 17 February 2025, the Seller entered into the Dugald River Zinc Concentrate Sales Agreement with Minmetals North-Europe in relation to the sale of the Product by the Seller to Minmetals North-Europe during 2025, 2026 and 2027.

Minmetals North-Europe is a wholly-owned subsidiary of CMC, the ultimate controlling shareholder of the Company, and is therefore an associate of CMC and a connected person of the Company under the Listing Rules. As a result, the Dugald River Zinc Concentrate Sales Agreement constitutes a continuing connected transaction for the Company.

As the relevant percentage ratios in respect of the maximum transaction value on an annual basis relating to the Dugald River Zinc Concentrate Sales Agreement are more than 0.1% and less than 5%, it constitutes a continuing connected transaction which is subject to the reporting, annual review and announcement requirements under Rule 14A.76 of the Listing Rules, but exempt from the independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

DUGALD RIVER ZINC CONCENTRATE SALES AGREEMENT

As part of the ordinary and usual course of business, the Group sells its products to the CMC Group. A large portion of Dugald River zinc concentrate is sold to a range of smelting and trading companies for delivery to smelters in Asia and Australia.

On 17 February 2025, the Seller entered into the Dugald River Zinc Concentrate Sales Agreement with Minmetals North-Europe in relation to the sale of the Product to Minmetals North-Europe

during 2025, 2026 and 2027. The principal terms of the Dugald River Zinc Concentrate Sales Agreement are set out below.

- Parties : (1) Seller: MMG Dugald River Pty Ltd
(2) Buyer: Minmetals North-Europe
- Term : From the date of the Dugald River Zinc Concentrate Sales Agreement for sales during 2025, 2026 and 2027 until all obligations of the parties are fulfilled
- Quantity : Approximately 100,000-120,000 dry metric tonnes of Product (+/- 10% at Seller's option) per annum
- Pricing : The pricing structure for the concentrate was determined after arms' length negotiations and is comparable with the prevailing market rates for concentrate qualities such as the Product.

Prices shall be:

- calculated based on agreed amounts of:
 - zinc contained in the Product at the Special High Grade Settlement Price for zinc as quoted on the London Metal Exchange; and
 - silver contained in the Product at London Bullion Market Association Silver Price spot quotation, each averaged over the agreed quotational period;
- less a treatment charge to be negotiated annually which will be consistent with those charges prevailing for comparable zinc concentrate contracts.

- Delivery Terms : Shipment shall be arranged by the Seller from the delivery point nominated by the Seller to the place of final destination nominated by Minmetals North-Europe on a CIF (Incoterms 2020®) basis.

The Dugald River Zinc Concentrate Sales Agreement will also set out, among other things, specifications, shipping schedule, delivery terms, payment terms, quotational period and other usual conditions (including those dealing with title and risk, insurance requirements and termination and suspension rights).

The terms under the Dugald River Zinc Concentrate Sales Agreement, including the quantity of Product and the treatment charge, will be negotiated annually and will be consistent with international terms received for the Product. The proposed treatment charge structure compares favourably to other similar agreements for deliveries of the Product to other smelters.

PROPOSED ANNUAL CAP

The maximum aggregate amount payable by Minmetals North-Europe to the Seller under the Dugald River Zinc Concentrate Sales Agreement for each of the financial years ending 31 December 2025, 31 December 2026 and 31 December 2027 is US\$200.0 million, (equivalent to approximately HK\$1,560.0 million).

The Annual Cap was determined by reference to internal projections of the agreed maximum number of tonnes of the Product that may potentially be sold to Minmetals North-Europe, the estimated assays of the Product, an estimated zinc price for 2025, 2026 and 2027 by an independent third party based upon forecasts made by a wide range of market participants, and the treatment charge agreed between the parties.

REASONS FOR AND BENEFITS OF THE DUGALD RIVER ZINC CONCENTRATE SALES AGREEMENT

The Group's principal activities include the production and sale of metal products, including copper, zinc, molybdenum, gold, silver, cobalt and lead. As part of its ordinary and usual course of business, the Group sells some of its products to the CMC Group at prices and on terms which are consistent with prevailing market rates and conditions for the relevant products.

The Dugald River operation will produce approximately 370,000 dry metric tonnes per annum of zinc concentrate at full production. China is an important market for zinc concentrate and the CMC Group has investments in several major Chinese zinc smelters which are in a position to process Dugald River zinc concentrates. CMC also has trading relationships with other Chinese zinc smelters which have processed Dugald River zinc concentrates. The Dugald River Concentrate Sales Agreement therefore provides efficient access to these end users.

The Dugald River Zinc Concentrate Sales Agreement has been reviewed and approved by the Directors (including the independent non-executive Directors but excluding the Interested Directors), who are of the view that the terms of the Dugald River Zinc Concentrate Sales Agreement, including the pricing mechanism which is consistent with the market practice for zinc concentrates, and the transactions contemplated thereunder (together with the Annual Caps) are on normal commercial terms and are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Interested Directors, each holding position(s) at CMC and/or CMN, have abstained from voting on the Board resolution approving the Dugald River Zinc Concentrate Sales Agreement in order to avoid any possible conflict of interest issue.

IMPLICATIONS UNDER THE LISTING RULES

Minmetals North-Europe is a wholly-owned subsidiary of CMC, the ultimate controlling shareholder of the Company, and is therefore an associate of CMC and a connected person of the Company under the Listing Rules. As a result, the Dugald River Zinc Concentrate Sales Agreement constitutes a continuing connected transaction for the Company.

As the relevant percentage ratios in respect of the maximum transaction value relating to the Dugald River Zinc Concentrate Sales Agreement are more than 0.1% and less than 5%, it constitutes a continuing connected transaction which is subject to the reporting, annual review and announcement requirements under Rule 14A.76 of the Listing Rules, but exempt from the independent shareholders' approval requirements, under Chapter 14A of the Listing Rules.

INFORMATION ABOUT THE GROUP

The Group is engaged in the exploration, development and mining of copper, zinc, molybdenum, gold, silver, cobalt and lead deposits around the world.

INFORMATION ABOUT THE CMC GROUP

The CMC Group is one of the largest state-owned enterprises in the mining sector in the PRC. It is engaged in the exploration, development, mining, processing and sale of a wide range of non-ferrous metals including tungsten, rare earth, copper, alumina, lead and zinc.

Minmetals North-Europe is engaged in the purchase and sale of a wide range of non-ferrous metals including copper, lead and zinc.
