---

### About Minmetals Resources

Minmetals Resources (MMR), which owns MMG, is a diversified mining and metals business listed on the Hong Kong Stock Exchange (stock code: 1208).

MMR is one of the world's largest producers of zinc and a substantial producer of copper, lead, gold and silver. It is also one of the largest importers and suppliers of alumina in China.

The Company's MMG mining assets include a series of operating mines in Australia and the Lao PDR, the Dugald River (Australia) and Izok Lake and High Lake (Canada) development projects, and a number of greenfield exploration programs in Indonesia, Australia and North America.

The Company's businesses in China focus on investments in the metals industry, the trading of alumina products, copper and aluminium fabrication, and aluminium resources exploration.
